

- Every worker will submit to a National background check and criminal records screening through [Screen Now®](#) and the report must come back clean **before** a worker is able to work with children.
- There are people that remain in the Sunday School hallway that watch for activity that may be dangerous and generally monitor the hallway during Sunday School hours.
- All Sunday school rooms are equipped with a door that has a window in it that allows for hall monitors to see in each room.
- Never is an adult to be left alone with any child. If a class only has one student, the teacher is to either move him/her to another classroom, or get another adult to stay in the room with them.
- We have a church safety team made up of trained people that constantly watch and keep the church secure during **all** scheduled church services and activities.
- No worker is allowed to touch a child in any way whatsoever that may be misconstrued as a sexual advance or anything of that nature. Workers are advised to refrain from touching the children at all, unless in emergency situations.
- Children's safety is a top priority for our Sunday School teachers and our safety team and every effort will be taken to make sure our children are completely safe.
